David,

I apologize. I just made a personal commitment and will be out of the country and cannot attend the meeting. I am available starting Oct. 21. Sorry for my previous email.

Subject: RE: Checking In

Valmichael – It looks like October 14th or October 15th are the two days that will work best for us in regards to scheduling a conference call to discuss the findings of the USACE review of the TCRA design. Please let me know a good date and time for your folks, and if you would like for me to set up at WebEx meeting. Could you please also confirm that this is a technical team call only?

Thanks,
David

David,

I've received the Draft Final Report from Paul with the USACE early last week. EPA is in the process of an internal review prior to making the document final. I suspect we will need about two weeks to complete this review. Once the review is complete we will be issuing your clients with IP and MIMC a letter with the findings of this report. Prior to issuing the

9494524

letter, the EPA would like to schedule a short conference call to discuss with you and your clients the findings of the report. Please check your availability the week of October 14th.

-Sincerely

Valmichael Leos

Valmichael – Any update on EPA's progress on the reassessment report? We would really like to get any feedback that we may need to consider for the FS that is due to EPA on August 30th as soon as possible.

Thanks,

David

David,

I'm working on getting a Final DRAFT report from the USACE this week. I'll keep you posted when I'm ready to set up that conference call to discuss the results of the report.

-Val

Subject: Checking In

Valmichael – I trust your summer is going well. I wanted to check in and see if we should expect

any feedback from EPA on the reassessment activities that you completed with USACE, or if you felt like you needed any additional information from us.

Let me know how things are going when you get a chance.

Thanks,
David
